

G3 World's Most Powerful Color Engine Monitor Now Shipping With Vibration Analysis

**PRIMARY
FAA
EGT, CHT & TIT
STC**

- **Special Lean Of Peak Functionality**
Unparalleled ease of operation
Nozzle balance analysis every time
- **Extensive Measurement Coverage**
Simultaneous EGT, CHT, TIT
Bus voltage, instrument vacuum
Fuel flow, fuel used, alternator temp, OAT
Manifold pressure, RPM, oil temp, oil pressure
- **Continuous Probe Diagnosis**
Confirm system integrity
Save time trouble-shooting
- **Sophisticated Data Logging**
Unlimited storage on standard SD camera card
Integrates data from multiple sources
PC compatible files and directories
- **Detailed Vibration Analysis**
Safely operate lean of peak
Detect early stage mechanical problems
Prevent catastrophic engine failures
- **In-Flight Exhaust Valve Monitoring**
Detect heat spikes with valves
Stop burning valves
Know which valve is not seating properly
- **Fully Compatible Upgrade**
Plug & play with all GEM instruments
New installs or upgrades are quick and easy
GEM trade-in offers available
